

Seeking 100 Londoners to build a stronger community

100 years ago, Londoners came together to build Victoria Hospital at South Street. Today, we are seeking 100 Londoners with vision, generosity and heart, to create new homes for Londoners living at our community's margins by donating \$35,000.

Indwell is a Christian charity that creates affordable housing communities supporting people seeking health, wellness and belonging. We are creating new, permanent affordable housing as part of a mixed rent development at the former Victoria Hospital grounds on South Street. Indwell is redeveloping two heritage buildings, transforming these spaces to be centres of care once again.

Will YOU join this movement to create a more inclusive and safer community for all?

Permanent Affordable Housing with Supports
London is facing an affordable housing and homelessness crisis. People are sleeping under tarps and in shelters, our psychiatric hospital services are over capacity, and our EMS and police services are stretched thin providing crisis mental health services on our streets. Supportive housing is a proven solution to homelessness.

Indwell's programs offer a supportive community for people seeking to transform their lives:

- from homelessness to engaged neighbours
- from poor mental health to flourishing wellness
- from dependence to supported independence

Our robust team of professionals includes staff roles of nurses, addictions counsellors, food security workers, and apartment support workers.

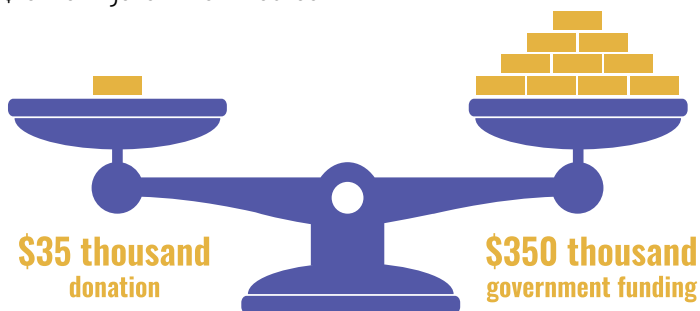

Creating a Legacy

Your family, workplace, or association can provide a new home - or several - sheltering potentially dozens of fellow Londoners from homelessness over many decades. Your investment will yield community benefits for generations.

Leveraging 10X

\$35,000 donation ⇒ \$350,000 in government funding = one unit created at the former Children's Hospital or Health Services building, as part of the Vision SoHo development.

Government programs require community investment; for every dollar we receive from the community, we can leverage about \$10 from government sources.

Recognition

A simple pin is one way we recognize your contribution; something you can wear with pride to demonstrate your commitment to creating a better London. We also offer recognition in permanent signage in the Auditorium of the Health Services building.

What do you think?

We'd love to tell you more about this project, hear your comments, and answer your questions.
